[1] The returns of Gold Exports for the four years, 1852–1855, contain, in addition to the amounts which passed through the Customs of this colony, the following quantities of Victorian gold which passed through the Customs of the adjacent colonies without being recorded in Victoria:—1852, 749,957 ozs., value £2,624,851; 1853, 652,297 ozs., value £2,446,114; 1854, 247,366 ozs., value £958,543; 1855, 41,530 ozs., value £166,120. Total, 1,691,150 ozs., value £6,195,628. No estimate has been given of the further quantity of gold taken out of the colony by private hand and not recorded in any Custom House.

[2] Since the year 1864, a considerable quantity of wool has each year been imported into Victoria across the Murray, from the Riverina district of New South Wales, for transport by the Echuca railway to Melbourne and for shipment from thence. No precise record of the quantity so introduced has hitherto been kept at the Customs, and it has been shipped as Victorian wool. It has, however, been ascertained that at least 13,000,000 lbs. of wool, valued at £972,000, crossed the Murray into Victoria in the year 1870.

[3] The number of Births and Deaths given for 1853 are all of which there is any record; but they are known to be considerably under the mark. It is supposed that each in reality amounted to not less than 5000. The deficiency has arisen owing to the system of registering Births and Deaths having been entirely changed during the year 1853, and to the new system not being at first properly understood. In consequence of this, and also owing to the unsettled state of the goldfield population, it is known that many children born were neither baptized nor registered, and many persons who died were buried without registration or funeral service.

The figures of Revenue and Expenditure given for 1871 are for the six months ending 30th June.

* The Migratory Population has been computed chiefly from the number of householders known to have escaped enumeration owing to their having changed their residences between the time of the schedules being deposited and the time they should have been collected, with a few additions of persons reported by the enumerators to have been encamped in their districts on the Census night, but whom the sub-enumerators did not succeed in meeting with. No attempt has been made to form an estimate of unenumerated persons of whose existence no definite information was obtained.

---

[1] The Borough of Chiltern was incorporated with the Indigo Road District on the 12th June 1871.——

[2] In these cases the estimated net annual value of rateable property has been returned in place of the gross annual value.——

[3] A portion of this borough was ceded to the Shire of Braybrook during the year 1871.——

[4] These figures have been taken from the return for the year 1870, as the information has not been supplied for the year 1871.——

[5] The Borough of Jamieson was amalgamated with the Howqua Road District on the 25th August 1871.

Note.—In those boroughs marked with an asterisk (*), no estimate of the total value of rateable property has been returned by the authorities; this has, therefore, been calculated in these cases at a uniform rate of ten times the annual value.

WILLIAM HENRY ARCHER, Registrar-General.

[1] The Borough of Chiltern was incorporated with the Indigo Road District on the 12th June 1871.

[2] A portion of this borough was ceded to the Shire of Braybrook during the Year 1871.

[3] These figures do not include the balance of principal due on the Gabrielli Loan, which is guaranteed out of the revenue of the colony.

[4] The Borough of Jamieson was amalgamated with the Howqua Road District on the 25th August 1871.

NOTE.—The returns of Revenue and Expenditure in this Table represent the *net* receipts and expenditure of the year under review, exclusive of credit and debit balances, bank overdrafts, &c.; to ensure uniformity and accuracy, therefore, in the cases where these items have been included, the returns have been corrected from the printed balance-sheets.

WILLIAM HENRY ARCHER, Registrar-General.

[1] The area of the colony is estimated at 56,446,720 acres, or 88,198 square miles.——[2] Of this amount, only £323,100 11s. 2d. was paid during the year 1869. The remainder (£471,442) was distributed over the previous seven years, being the sum of the yearly payments of 2s. 6d. per acre on 537,293 acres.——[3] Of this amount the sum of £331,005 11s. 4d. was received during the year 1870. The remainder, £132,814 19s., was brought to account in former years as rent, license fees, &c., under section 22, section 33, and section 34, Land Act 1862, and under section 12 and section 42, Land Act 1865.——[4] Of this amount the sum of £257,541 15s. 4d. was received during the year 1871. Of the remainder, £270,577 10s. 7d., the greater part was paid as rent, license fees, &c., during former years.

NOTE.—The area licensed under the Land Act 1869 up to the end of 1871 is:—Section 19, about 798,402 acres at 2s. per acre, future price £1 per acre; section 49, about 12,677 acres at the rate of £4 license fee for 20 acres. The lands once held under sections 12 and 42 of the Land Act 1865 have, very many of them, been brought under sections 33 and 31 of the Land Act 1869; and those now held under those clauses of the Land Act 1869 will undoubtedly take the same, as a general course, and will appear as purchases in future years' statistics.

WILLIAM HENRY ARCHER, Registrar-General.

Note.—It is to be borne in mind, with reference to the returns of vines, that, whilst the acreage and number of vines, in common with the remainder of the statistics, are for the year ending 31st March 1872, the quantity of grapes gathered and of wine and brandy made are for the previous season. The grape crop comes in too late to admit of its being returned when the Agricultural Statistics are collected.

NOTE.—The returns of vines for 1869 are known to be imperfect. The Agricultural Statistics of that year were collected by the Crown Lands Bailiffs, who appear not to have been so successful in procuring a correct return of vines, &c., as the collectors in other years.

Total	181,643	216,343	583,166	799,509	10,002,381	177,447	11,160,980

Note.—The returns of Stock are in all probability rather under the mark, in consequence of the numbers kept in towns and on allotments of land smaller than those the collectors were called upon to visit, and of the horses and bullocks used by carriers on the roads. The collectors were directed to furnish estimates for these numbers, but in some cases were unable to do so, hence the presumed deficiency.

NOTE.—This Return contains a statement of all the live stock kept upon stations, without distinction as to the numbers running upon Crown or those upon alienated land. It has been compiled for the most part from statements voluntarily furnished by the squatters, during the first quarter of 1872, in reply to enquiries from the Registrar General's Department. In cases where the enquiries were not responded to, the figures have been supplied from other sources.

WILLIAM HENRY ARCHER, Registrar-General.

NOTE.—The patents applied for numbered 1097 during the period from 1854 to 1867, both years inclusive; 124 during the year 1868; 139 during the year 1869; 119 during the year 1870; and 133 during the year 1871. The discrepancy between the actual numbers and those obtainable by adding the columns may be explained by the fact that many patents refer to more than one subject, and have, consequently, to be classified under two or more headings.

WILLIAM HENRY ARCHER, Registrar-General.

EXTENT AND VALUE OF GOLD WORKINGS.

RETURN of the Number of distinct Quartz Reefs proved to be Auriferous; the Extent of Auriferous Ground worked upon, and the Estimated Value of Gold Mining Claims in the several Mining Districts, during the Year 1871.

Mining Districts.	Number of Distinct Quartz Reefs proved to be Auriferous.	Extent in Square Miles of Auriferous Alluvial, and Quartz Ground worked upon.	Estimated Value of Gold Mining Claims.
			£
Ballarat District	189	134½	1,120,630
Beechworth District	779	248½	573,750
Sandhurst District	710	140½	4,567,930
Maryborough District	524	77¾	813,650
Castlemaine District	390	166¼	1,461,743
Ararat District	73	82¼	3,271,400
Gippsland District	465	135	465,943
Totals	3,130	984¾	£12,275,046

NOTE.—The number of distinct quartz reefs cannot be strictly correct, as parts of the same reef, in some localities, are held to be distinct reefs, and named accordingly. As the reefs are further explored, it is found, too, that what were supposed to be separate reefs are not really distinct. The extent of auriferous ground is here put down from estimates made by the Mining Surveyors and Registrars, not from actual surveys; and in a few instances the estimates of the present Surveyors and Registrars differ from those made by their predecessors. The figures vary from year to year; as the shallow alluviums of the older goldfields are abandoned by the miners, they are taken up and occupied, under the provisions of the *Amending Land Act*, by agriculturists and gardeners, and ground which one year was included in the estimated area of gold workings is excluded in another.

R. BROUGH SMYTH, Secretary for Mines.

AVERAGE YIELD OF AURIFEROUS QUARTZ.

RETURN showing the Average Yield of Gold from certain parcels of Quartz Crushed in 1871 in the several Mining Districts, from Returns made by the Mining Surveyors and Registrars.

Totals	924,704 7/10	484,303	3	5	0	10	11·39

NOTE.—The above Table does not show the total quantity of quartz crushed in the several localities, but only the yield of certain "crushings" respecting which the Mining Surveyors and Registrars have been able to obtain information. Owing to the circumstance that many of the machine-owners are unable to give, or are precluded from giving, information, it is impossible to get complete returns from every district, and in considering the relative importance of each district as regards quartz mining, the tables relating to machinery should be examined and compared.

Since the first publication of the Statistics, information has been obtained concerning 8,528,323·8 tons which have been crushed, which yielded an average of 11 dwts. 2·71 grs. per ton.

R. BROUGH SMYTH, Secretary for Mines.

PRODUCE OF GOLD FROM QUARTZ VEINS AND ALLUVIAL WORKINGS.

RETURN showing approximately the Gold obtained from Quartz Veins and Alluvial Workings during the Year 1871.

	ozs.	dwts.
From Quartz Veins	664,154	13
From Alluvial Workings	691,322	10
Total Gold Exported	1,355,477	3

NOTE.—The above results are but rough approximations. The Mining Surveyors and Registrars can furnish only estimates based on information afforded by the banks and gold-buyers, and on their own knowledge of the character of the workings in their districts. The check on the returns—and not a sufficient one—is that afforded by the returns of quartz and quartz tailings crushed, which, however, cannot and do not comprise information respecting all the vein-stuff put through the mills.

* Prior to 1860, the Estates of Deceased Persons were collected by the Curator. They are not, therefore, until then included in the returns of property sworn to. In 1860 the new Act (24 Vict. No. 99) came into force, and since that period the property administered to by the Curator has been included in the returns.

* The number of Lodges or Courts in this column represents all that furnished returns respecting their financial operations, and is less than the number that furnished statistics of number of members, sickness, mortality, &c., as in subsequent Tables.

NOTE.—The details of Income were, in some instances, furnished by the Societies in an imperfect state, whilst the total was furnished correctly. In consequence of this, the sum of the amounts entered in the columns showing the details of Income is often less than the amount in the total column.

NOTE.—The attention of the Members of Friendly Societies is especially drawn to the illegality of using one fund for the purpose of another. Great care is also necessary in the admission of members—first, as to health; and next, as to age. In regard to age, the younger the members, the better; it being of importance to keep the total of the average ages under thirty, until graduated rates for all ages are determined. Vigilance is also highly necessary in reference to the payment of Sick Money—that is, to making such payments where and so long only as real disablement exists. And again, surplus funds, instead of being left unproductive, should, as speedily as possible, be invested at as a high rate of interest as can be obtained consistent with perfect safety. Any steady declension in the old rates of interest, or any striking increase in sickness and mortality in special localities, or in connection with particular occupations, should be carefully watched, and the solvency of each fund periodically tested. The future well-being of all these prudential institutions lies mainly in such processes as are here indicated.

* The number of Lodges or Courts in this Table is less, for some years, than that given for the corresponding years in the Decennial Return at page 49, *post*, the reason being that fewer Societies furnished returns of their financial operations (Form F) than of the number of members, sickness, &c. (Form E).

NOTE.—The details of Income and Expenditure do not always balance with the totals, in consequence of the former being sometimes furnished in an imperfect state.

WILLIAM HENRY ARCHER, Registrar-General.

* The number of Lodges or Courts in this column is greater than that in the corresponding column of Tables at pp. 44, 45, and 46, *ante*, the reason being that some of the Societies which furnished returns of the number of members, sickness, &c., did not give any statement of their financial operations.

WILLIAM HENRY ARCHER, Registrar-General.

* The number of Lodges or Courts in this Table is greater in some years than that shown for the corresponding years in the Decennial Table at p. 47, *ante*, the reason being that some of the Societies that furnished the returns of their members, &c. (Form E), did not also furnish returns of their financial operations (Form F).

NOTE.—This and the preceding Tables do not present a statement of the operations of all the Friendly Societies in Victoria, since many of the societies have each year failed to comply with the Act in regard to those provisions which prescribe that Returns shall be furnished to the Registrar-General. Societies should make these Returns, not merely in compliance with the law, but for their own future welfare, it being necessary to accumulate data over a considerable period in order to determine the true graduated rate of sickness and mortality to the extreme of life. The apparent steady increase of sickness from 1865 necessitates strict attention on the part of Friendly Societies to the note at the foot of table headed "Friendly Societies—Expenditure," at p. 45, *ante*.

WILLIAM HENRY ARCHER, Registrar-General.

NOTE.—This Return has been supplied by the Government Astronomer. The times of taking daily observations, whereby the records of mean temperature and mean atmospheric pressure are obtained at the various stations, are as follow:—Melbourne, Portland, and Cape Otway, 6h. and 9h. a.m., and 3h. and 9h. p.m.; Sandhurst, 9h. a.m., and 3h. and 9h. p.m.; Ballarat, 9h. 30m. a.m., and 3h. 30m. and 9h. 30m. p.m.; Ararat, 9h. a.m., and 3h. p.m. To these observations a correction is applied, in order to make the results equivalent to those derived from hourly observations.

* Until September 1862 the readings were at the Flagstaff Observatory, 120·7 feet above the level of the sea. After that period, the readings were at the Melbourne Observatory, 91·3 feet above the sea-level. It is necessary to increase the observations taken at the former place by ·029 inch, to make them comparable with those of the latter.

[1] Including cotton and woollen mixed piece goods.——[2] Prior to the end of 1867 the bulk of the gold received from other colonies was transhipped under bond, in order to avoid payment of the export duty; it therefore did not appear in the returns of Imports and Exports. Since that date the export of gold has been free, and consequently the receipts and shipments of gold have been embodied in the general returns in the same manner as those of any other commodity.——[3] Including galvanized ironware.
[4] Including silk manufactures.

[1] Including cotton and woollen mixed piece goods.

[2] Prior to the end of 1867 the bulk of the gold received from other colonies was transhipped under bond, in order to avoid payment of the export duty; it therefore did not appear in the returns of Imports and Exports. Since that date the export of gold has been free, and consequently the receipts and shipments of gold have been embodied in the general returns in the same manner as those of any other commodity.

[3] Including galvanized ironware.

[4] Including silk manufactures.

NOTE.—This Table has been compiled from returns received from the postmasters, receivers and paymasters, shire secretaries, clerks of road boards, and other officials located in the various districts, in accordance with forms supplied from the Immigration Office. These forms, in addition to columns for the above information, contained a request that the wages of other prominent callings might be furnished. This request resulted in dressmakers, milliners, and machinists being returned as receiving from 2s. 6d. to 4s. per day, with board and lodging, and potters, 9s. to 12s. per day, without board and lodging, in Brunswick; in married couples on farms being returned as receiving £60 per annum in Carisbrook; in married couples on stations as receiving £50 to £75 per annum in the district of Durham Ox; in slate quarrymen as receiving from 6s. to 7s. per day, without rations, at Gisborne; in the wages of platelayers being returned at 6s. to 7s. per day, without rations, at the Little River; in the wages of storekeepers' assistants being returned at 7s. per day, without board and lodging, at Maffra; in the wages of gardeners being returned at 10s. per day, without board and lodging, at Mortlake; in the wages of engine drivers being returned at 7s. per day, without board and lodging, at Piggoreet; in fencers as earning 1s 6d. per rod, and quarrymen 6s. per day, without board and lodging, and limeburners 3s. 4d. per day, with rations, at Point Nepean; and in the wages of male cooks being returned at from 20s. to 30s. per week, with board and lodging, for Swan Hill.

WILLIAM HENRY ARCHER, Registrar-General.

[1] This column presents a statement of the average numbers attending at one service only on the Sabbath, and it has been pointed out that this mode of calculating the attendance does not render the returns of the different denominations strictly comparable, inasmuch as, in connection with some religious bodies, there are several services held on the same day, at each of which an entirely distinct set of worshippers attends, whilst, in the case of other denominations, the attendance at subsequent services always consists, to a greater or less extent, of the same individuals as were comprised in the first congregation.——[2] These figures are copied from the returns furnished for the year 1871, as the statistics of the Presbyterian Church of Victoria are, in future, to be collected biennially.——[3] These figures are only to be taken as approximate, some of the churches not having furnished returns.

[1] In connexion with the Melbourne Grammar School there is an exhibition of £21, tenable for three years, which is awarded annually to a boy under 14, for education in the school; also one of £20, given annually for three years to a student who is going to attend the University.——[2] At the Geelong Grammar School there are now three students under education as exhibitioners from Common Schools.——[3] In connexion with the Scotch College there is an exhibition of £21, tenable for two years, annually open for competition to boys under 14 years of age. The successful candidate is required to attend the classes of the college.——[4] In connexion with the Wesley College there is a scholarship called the "Draper scholarship," which has been established in memory of the late Rev. D. J. Draper, who perished in the *London*. It is of the value of £25, tenable for one year. Accepted candidates for the Wesleyan Ministry form a distinct division, but their admission is only a provisional arrangement awaiting the proposed establishment of a Theological Institution.

WILLIAM HENRY ARCHER, Registrar-General.

NOTE.—The large increase in the number of scholars in Public Schools shown in the returns for 1869, 1870, and 1871, as compared with previous years, is partly owing to the fact that, in the figures supplied by the Education Office prior to those years, the average monthly number of children on the Rolls was given; whereas, for 1869, 1870, and 1871, the total numbers who attended the schools were returned. It was mentioned in a footnote to the Table of Common Schools *ante* that a correction applied for the children who attended at more than one school during 1871 would reduce the number shown in the Table (131,145) to 114,300 as the number of distinct children who attended Common Schools in the year. In the "Statistics for 1868" it was stated that the number of distinct children who attended Common Schools in that year was 101,925; in the "Statistics for 1869" it was stated that the number of distinct children who attended Common Schools in that year was 106,079; and in the "Statistics for 1870" it was stated that the number of distinct children who attended Common Schools in the year was 107,537.

WILLIAM HENRY ARCHER, Registrar-General.

[1] These figures are only to be taken as approximate, some of the returns not having been received.

NOTE.—Several of the returns of the Primitive Methodist, and of the Independent or Congregational Church, and the greater number of those of the Baptist Church do not distinguish the sexes of teachers and scholars, hence the sum of the males and females does not agree with the total of both sexes.

[1] This institute was closed in April 1872.—— [2] In these cases the premises are rented.—— [3] In addition, four cases of books were borrowed from the Melbourne Public Library.—— [4] In these cases no information, or imperfect information, has been received for 1871; the figures given have therefore been taken from the returns for 1870.—— [5] In these cases the public or borough offices, or common school rooms are used.—— [6] In addition, six cases of books, changeable half-yearly, have been borrowed from the Melbourne Public Library.—— [7] In addition, 100 volumes are rented from Mullen's Library, and 200 volumes from the Melbourne Public Library.—— [8] This library was not open to the public till April 1872, in which month books were first obtained from the Melbourne Public Library.—— [9] In addition, 100 volumes, changeable *ad lib.*, are rented from Barber's Library, Melbourne.—— [10] In connection with this institute there are two reading rooms, one for the use of the members and the other free to the public; the number of visits as given in this return refers to the latter, as no record has been kept of the number of visits to the members' room.—— [11] In addition to the number of volumes returned, many of the institutions are well supplied with magazines, serials, newspapers, &c.

WILLIAM HENRY ARCHER, Registrar-General.

[1] The returns of the Ararat Hospital are brought down to the 30th June 1872, that is for a period of 18 months.——[2] The Melbourne Lying-in Hospital is also an Infirmary for Diseases peculiar to Women and Children; and therefore several males are included in the columns of "Persons Relieved."——* These institutions are also Benevolent Asylums.——NOTE.—The returns do not always distinguish the sexes of the persons relieved, hence the sum of the males and females on the total line does not in every case agree with the total of both sexes.

WILLIAM HENRY ARCHER, Registrar-General.

[1] In this total the number of children is not included.

[2] These totals represent the number of families relieved, without specifying the number of individuals.

Note.—The returns of some of the societies do not distinguish the sexes of the persons relieved, hence the sum of males and females on the total line does not agree with the total of both sexes. The returns of receipts and expenditure represent the absolute amounts received and expended during the year, exclusive of credit and debit balances, &c.
